

Tie Fighter & X-Wing Starfighter Instruction Manual

by Cala Custom Woodworks

Getting Started: Tie Fighter parts are labeled with letters **A-H**, X-Wing parts are labeled with numbers **1-12**. Separate all the parts from the puzzle frame and follow the steps below. This puzzle is designed to be tension fit, but you may find parts or joints that could use a small dab of glue.

TIE FIGHTER

Step 1: Place parts **A & B** together, so that the etching details are facing front and back. Insert one side into the slot of part **C**. Insert the other end of **A&B** into the slot of part **E**.

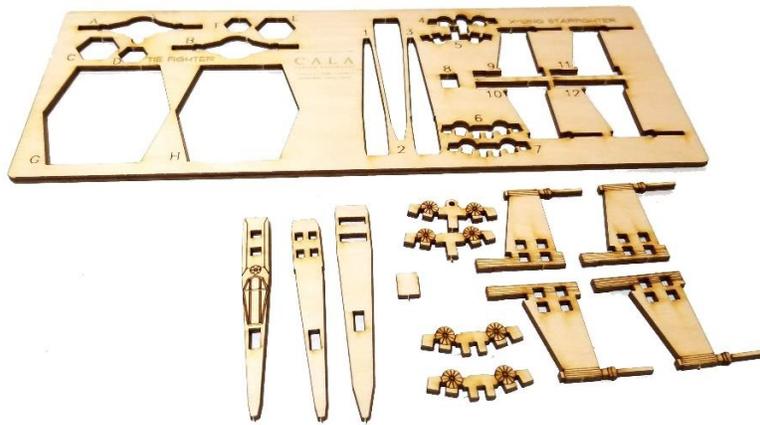

Step 2: Place part **G** onto one end, and part **H** onto the other end.

Step 3: Finish off by placing parts **D & F** to cap off both ends of **A & B**.

X-WING STARFIGHTER

Step 1: Slot the center tab of Part 4 into the middle opening of part 1, with the etching facing forward. And insert the centre tab of part 5 into the rear slot of part 1.

Step 2: Insert part 8 into the longer slot.

Step 3: Place the tabs of parts 4 & 5 into the slots of parts 9 & 10, etching details facing up.

Step 4: Insert part 2 onto the assembly by slotting onto part 8.

Step 5: Slot the tabs of Part 6 into the middle opening of part 3, with the etching facing forward. And insert the centre tab of part 7 into the rear slot of part 3.

Step 6: Place the tabs of parts 6 & 7 into the slots of parts 11 & 12, etching details facing up.

Step 7: Mate the 2 assemblies together by inserting part **8** into the open slot on part **3**. You may want to add a dab of glue to keep these sections together.
